Dear Mr. Robison:

RE: ML 982 & ML 43853 BSLS

I understand that you are quarrying rock from lands contained within the above numbered state leases. Although the site contains an old quarry, it is necessary that you have an updated plan of operations on file with the division. I am sending you the division's mining notification requirements. Please immediately provide me with all of the information that is requested.

Current state law also requires that you file a notification of small mining operations with the Division of Oil, Gas and Mining. You may contact Mr. Tony Gallegos (538-5340) to request appropriate DOGM filing forms and instructions for your operation.

Please contact me should you have any questions in this matter.

Sincerely.

JOHN T. BLAKE  
MINERAL RESOURCES SPECIALIST
